Are you caring for someone?

A carer is someone who provides unpaid care to another person who is frail aged or has dementia or someone of any age who has a disability, a mental illness or an ongoing medical condition.

All carers are different and each care relationship is unique. Carers can be any age. They may be a spouse or partner, a relative, friend or neighbour. Some carers live with the person they care for, others don't.

Regardless of the circumstances, caring can be a rewarding experience as well as demanding, challenging and sometimes overwhelming.

How can we help?

The Mpower Support for Carers program is funded by the Victorian Government to provide a range of short term, flexible supports that work for you and the person you are caring for.

Supports

The Mpower Support for Carers program can provide;

- Peer Support Groups to share knowledge support experiences
- Social activities for time out from your caring role
- Aids and equipment for the person you care for
- Workshops and information forums
- Information and referral
- Carer support and referral to counselling
- Limited funding for short term, flexible respite
